Whether you have a bookkeeping business or plumbing business research shows that Greenskills training is giving small businesses the opportunity to make a **real difference** to Australia's **environmental future!**

[Click here to read case studies from a variety of industry sectors](#)

These workshops are valuable for:

- Small Business Owners
- Managers
- Supervisors
- Consultants
- Customer Service and Support Staff

Did you know?

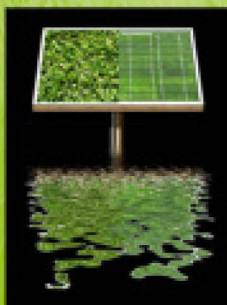

9 out of 10 Australians believe it's important for companies to 'consider the impact of their operations on the environment and community and not just make profits.'

~ Consumer Trends Report
October 2008
Mobium Group

In 2008, **66%** of businesses had actively sought information on how to reduce their impact on the environment and **54%** had implemented at least one new initiative in the last year.

~ Planet Ark

Green skills for a Green Future Course...

This specially tailored course provides you and your staff with the skills to manage your small business **more sustainably** and to gain a **competitive advantage** as new low-carbon markets emerge.

Our greenskills course will focus on how to:

- integrate sustainability into business planning and processes
- develop and manage environmentally sustainable business practice
- identify green skills required in the workforce
- develop and deliver innovative sustainable products and services.

This is a **free course** subsidised by the **NSW government** for **eligible small business** (less than 20 employees) wanting to train managers, supervisors and environment officers in green skills.

During this course you will complete and receive a statement of attainment in the following units:

- BSBSUS201A – Participate in environmentally sustainable work practices
- BSBSUS301A – Implement and monitor environmentally sustainable work practices
- BSBSUS501A – Develop workplace policy and procedures for sustainability
